

AIRBAG "Q-TYPE" (HEAT-SEAL)

CARTRIDGE PACKAGING & INFLATING INSTRUCTIONS

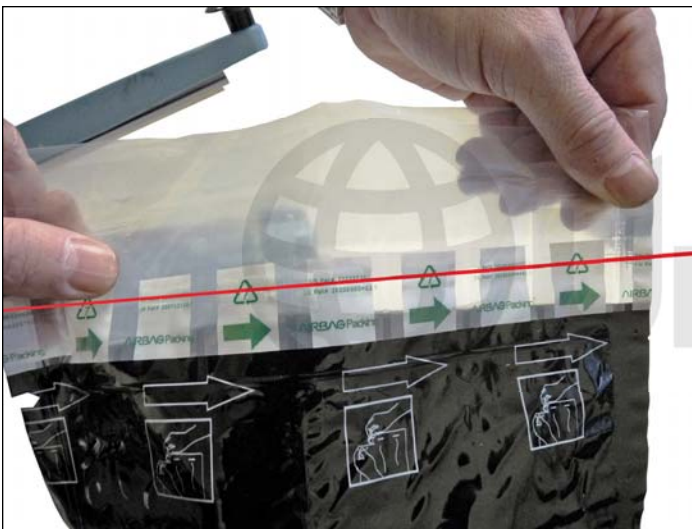

UNINET Q-TYPE (HEAT-SEAL) INFLATABLE AIRBAG

AIRBAG "Q-TYPE" (HEAT-SEAL) CARTRIDGE PACKAGING & INFLATING INSTRUCTIONS

By Mike Josiah and the Technical Staff at UniNet

1. Place the cartridge in the correct size bag.

2. Heat seal the bag in the area indicated by the red line.

Do not use excessive heat. Just a short time interval works fine.

3. Insert the air gun nozzle into the center fill port of the bag as shown.

Fill the bag until fully inflated.

4. Place the cartridge in the box. When in a properly sized box, there is no need for any further packing materials.
